Claims 4-11 and 19-23 are presented for examination.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 4 is rejected under 35 U.S.C. 102 (b) as being anticipated by the chemical abstract 87:63008. The Chemical Abstract teaches the use of the claimed prostaglandin in a pharmaceutical formulation as broncodilators. The above reference makes clear that the claimed composition is old and well known. The new use of an old composition does not render such composition new.

Claims 5- 11 and 18-21 are rejected under 35 U.S.C. 102 (b) as being anticipated by Stjernschantz et al. (U.S Patent 5,296,504). Stjernschantz et al. Teach the use of the claimed prostaglandins in a pharmaceutical formulation for the treatment of glaucoma. The above reference makes clear that the composition of claim 5 and the method of use of claims 6-11 and 18-21 are old and well known.

Claims 22 and 23 at present time are considered to be allowable.
